**All documents referenced in these Minutes are stored and available for public inspection in the Planning Board Office located at 140 Worcester Street.**

The Chair opened the continued Public Hearing at 7:30 p.m.

Mr. Cleaves (Whitman & Bingham Design Engineer) provided the missing tear sheet from the Telegram & Gazette. He also provided the ZBA recorded Variance as requested. All VHB comments have been addressed. The waiver request needs to be formally voted on. The plans were revised with today's date to address some minor items: some trees were removed that conflicted with the snow storage, and dimensions for existing and proposed driveways and walkways were added. Previous revisions included the addition of a recharge area off of the back roof. Soil testing will be done prior to construction and the findings reported to the board.

Mr. Rajeshkumar made a motion to close the public hearing; Mr. Vignaly seconded; all voted in favor; motion approved.
