

Meeting Minutes

Parks Facilities Committee

10 Feb 2022

Members Present: Erin Palumbo, Pat Inderwish, Barur Raj Rajeshkumar, Jim Pedone, Jim O'Day

Warner Larson – David Warner, Sameer Bhoite, Josh Millorig

Meeting Called to Order: 7pm by Inderwish.

Motion made to approve minutes by Pedone, seconded by Rajeshkumar.

Review of proposal from Warner Larson. Three different field orientations are possible and they are the holding point for this project currently. Option 3 is least expensive because it follows the lay of the land. The other two options involve moving great amounts of dirt. Option 2 allows for the right field to be 200feet, Option 3 right field is 177feet. Option 2 has a flat box on the field and the existing light pole that would impact play on the field.

Pedone, can we do Option 2 within the allotted budget and can the utilities be moved? WL says they would want the information on utilities before estimating cost of Option 2.

WL is indicating supply chain and other post-covid problems will affect pricing. Documentation from town on local water pipe to WL is needed.

Other discussion regarding cost savings measures, but WL returned that not ready for those talks yet.

Pat will approach Board of Selectman regarding moving utilities.

David Warner says he will schedule field work schedule, once that is known, we can set next meeting.

Motion to adjourn by Pedone, second by Palumbo.

Next Meeting- TBD
