[12/4/2023 WBMHS Principal's School Council Minutes](#)
Approved 8-0
2. Discuss our School Improvement Plan
[NEASC Copy of WBMHS School Improvement Plan 2023-2024 draft.docx](#)

Midterm Exam Feedback:

Teacher (English): due to the schedule, some classes had more time for review, split the test for the classes that needed

Students performed well.

Student (Junior): number of exams in one week was a lot, but went well and is a better system in terms of college preparation. Will take adjustment time.

Student (Freshman): My exams went well, I feel that it was great and I didn't feel overwhelmed at all with the load of exams. I felt more prepared than last year and I ended up getting better test scores.

Student (Freshman): time allotted for exams was enough, went well

Teacher (PE): exams went well, time was enough, students created games and presented, great experience

Student (Freshman): I think exams went well, two exams a day seem right. The 90 minutes for an exam was just the best time block in my opinion. The Monday exam was the most stressful. Mostly because you had to go to the rest of your classes later in the day, that was definitely a distraction for me.

Vision of the Graduate: Reflect on and share the current vision of the graduate to determine if it needs any revisions and develop a series of steps/a timeline in which the vision will become integrated with the core values and beliefs, curriculum, instruction, and assessment, and determine measurement of student progress in achieving the vision of the graduate can be shared with families and the community (Standard 1, Principles 1.2, 1.3, 1.4, 1.6, Standard 2, Principles 2.1, 2.2, 2.3, 3.1, 3.2)

-Discussed what the vision is and how it is applied and utilized, woven throughout the curriculum, provide feedback to students
